

## BOLDLY SEE WHAT NO COVER HAS ALLOWED YOU TO SEE BEFORE!

The above image of the Genicular Nerve was taken at a cadaver lab using a Mindray TE7 with a transducer covered by the Safersonic Gel Free Ultrasound Transducer Cover. Those who know, know that the Genicular Nerve is located around the knee and it is usually difficult to clearly see under ultrasound. However, between the Mindray TE7 and the Safersonic Gel Free Ultrasound Transducer Cover, the image is clear and sharp.

Maybe your clinical practice could benefit from such **CLARITY!**
